## NOTES APPLYING TO ALL TABLES:

- Government payment figures current from 1 July 2001 to 30 September 2001;
- Rent Assistance is only available to people living in private rental accommodation and varies with the amount of rent paid. Payments cease when there is no longer an entitlement to more than the basic rate of Family Tax Benefit (Part A);
- Parenting Payment (Single) includes Pharmaceutical Allowance;
- All tables assume carer parent is not in paid employment;
- All tables also assume that carer parent has more than 90 per cent care of the child(ren) post-separation. Paying parents with 10 per cent or more care of the child(ren) would have an FTB entitlement in respect to them/ those children;
- Payer with current family presumes payer's new partner is not in paid employment and child is aged 6 to 13 years. The tables do not take into account any child support received for the payer's stepchild.
- All Family Tax Benefit Part A amounts marked with * also includes a rent assistance component.
- All care has been taken in preparing these tables, but they should not be relied upon for individual cases - advice should be sought from the CSA and/or Centrelink for specific circumstances.
